MESSAGE FROM THE CEO

Building a Stronger, Safer Future Together

Dear Clients, Partners, Staff, and Stakeholders,

Since our inception, **Bewandert Engineers Private Limited (BEPL)** has embarked on a journey defined by resilience, technical precision, and an unwavering commitment to excellence. Operating at the dynamic intersection of civil infrastructure, industrial execution, and specialized engineering, we take immense pride in turning complex challenges into enduring, high-quality infrastructure.

To our **clients**, you are the heartbeat of our business. We do not just build structures; we build enduring partnerships. Every project—whether managing heavy industrial foundations, specialized mechanical installations, or complex railway and civil infrastructure—is approached with a singular focus: delivering superior quality, absolute financial transparency, and strict adherence to timelines. Your trust is our greatest asset, and we remain dedicated to exceeding your expectations at every phase of execution.

To our **staff and site engineering teams**, your dedication, hard work, and technical expertise drive our success on the ground every single day. From our corporate offices to our active project sites, you embody our core values. Above all, I want to reiterate our absolute commitment to **Zero Tolerance safety protocols** and rigorous quality control. No timeline or target is more important than the safety, health, and well-being of every individual wearing our hard hat. Look out for one another, speak up without fear, and maintain the highest standards of integrity in all that you do.

To our **stakeholders, vendors, and strategic partners**, your collaboration enables our scalable growth. By upholding the highest standards of corporate governance, ethical business conduct, and mutual respect, we ensure that our collective ecosystem thrives sustainably.

As we look toward the future, **BEPL** remains steadfast in our mission: to innovate responsibly, execute flawlessly, and build infrastructure that stands the test of time. Thank you for your continued trust, hard work, and shared vision.

Warm regards,

Chief Executive Officer
Bewandert Engineers Private Limited

MESSAGE FROM THE COO

Driving Operational Excellence and Uncompromising Execution

Dear Clients, Project Teams, and Valued Partners,

At **Bewandert Engineers Private Limited (BEPL)**, operational success is built on the pillars of meticulous planning, technical precision, and disciplined on-site execution. As we continue to expand our footprint across complex civil-infra, industrial, and specialized engineering projects, our commitment to delivering results remains stronger than ever.

To our **site engineering teams, project managers, and operational staff**, you are the engine that turns our engineering blueprints into tangible reality. From managing heavy industrial foundations and complex mechanical installations to overseeing intricate progress accounting and precision measurement verifications, your daily vigilance drives our reputation. I want to emphasize that operational efficiency can never come at the expense of safety or quality. Our **"Zero Tolerance" safety culture** and daily safety briefings are non-negotiable. Every milestone we achieve must be matched by our commitment to sending every team member home safe, every single day..

To our **clients and project partners**, we recognize that timely delivery, structural integrity, and cost efficiency are paramount to your success. We are dedicated to streamlining our project workflows, optimizing resource utilization, and resolving administrative or technical challenges with absolute transparency and speed. When you partner with **BEPL**, you are partnering with a team that takes complete accountability for the lifecycle of the project.

As we scale our operations across our regional hubs, we remain focused on continuous improvement, strict quality control, and collaborative execution. Thank you for your relentless hard work, professionalism, and dedication to building a robust future.

Warm regards,

Chief Operating Officer

MESSAGE FROM THE VICE PRESIDENT OF BUSINESS DEVELOPMENT

Forging Partnerships, Expanding Horizons, and Delivering Value

Dear Clients, Strategic Partners, and Stakeholders,

In the fast-evolving landscape of civil infrastructure, industrial construction, and specialized engineering, sustainable growth is built on trust, capability, and unyielding execution. At **Bewandert Engineers Private Limited (BEPL)**, our vision extends beyond winning contracts—we strive to forge enduring partnerships that transform complex engineering challenges into long-term strategic assets for our clients.

To our **esteemed clients and prospective partners**, your trust is the cornerstone of our expansion. Whether we are delivering heavy industrial material handling systems, complex railway civil works, or large-scale infrastructure, our value proposition is clear: uncompromising technical precision, absolute financial transparency, and strict adherence to timelines. We listen closely to your operational needs, aligning our engineering capabilities to deliver bespoke solutions that maximize your return on investment and secure project success from day one.

To our **collaborators, vendors, and industry networks**, our success is deeply intertwined with yours. By upholding the highest standards of ethical business conduct, corporate integrity, and mutual respect, we cultivate a robust ecosystem where innovation and reliability thrive together.

As we scale our footprint across regional markets, **BEPL** remains uniquely positioned to tackle multifaceted infrastructure demands. We combine the agility of a dynamic engineering firm with the rigorous governance of industry leaders. We are excited about the future, eager to take on new challenges, and committed to building a stronger, more connected tomorrow together.

Warm regards,

Vice President - Business Development

MESSAGE FROM THE CHIEF FINANCIAL OFFICER

Fiscal Discipline, Transparency, and Sustainable Growth

Dear Clients, Financial Partners, and Valued Stakeholders,

In the capital-intensive world of civil infrastructure, heavy industrial construction, and specialized engineering, long-term success is anchored in rigorous fiscal discipline, financial transparency, and robust administrative management. At **Bewandert Engineers Private Limited (BEPL)**, we view financial integrity not merely as a bookkeeping requirement, but as the fundamental bedrock that safeguards our company, our partners, and our future.

To our **clients and project partners**, we understand that predictable cost management, transparent billing, and efficient project reconciliation are critical to your success. Our finance and administrative teams maintain meticulous oversight over complex commercial mechanisms—including comprehensive progress billing, rigorous measurement verification, and structured contractual adjustments. We are committed to eliminating friction, ensuring absolute accuracy, and fostering a collaborative, transparent financial environment for every contract we undertake..

To our **banking, institutional, and commercial partners**, your confidence enables our strategic expansion across regional divisions. We maintain stringent internal controls, strict adherence to statutory and MSME compliance, and a conservative approach to risk management, ensuring that every rupee invested generates measurable, enduring value.

To our **internal project and management teams**, your daily dedication on the ground—from precise measurement tracking to compliance with company governance—directly supports our fiscal health. Operational efficiency and financial accountability go hand in hand; by protecting our bottom line, we secure the resources needed to invest in our people, technology, and safety frameworks.

As **BEPL** continues to scale its operations and execute high-value contracts, we remain steadfast in our commitment to sound financial stewardship, ethical business conduct, and sustainable economic growth. Thank you for your continued trust and partnership.

Warm regards,

Chief Financial Officer

About Us

Bewandert Engineers Private Limited (BEPL) is an emerging and dynamic engineering solutions firm committed to excellence in infrastructure development, technical consultancy, and project execution. Headquartered in West Bengal, our organization brings a fresh perspective to civil-infra, structural design, and specialized engineering operations, driven by a passion for precision, safety, and innovation.

Who We Are

Founded with a vision to deliver robust engineering frameworks, BEPL operates at the intersection of technical ingenuity and disciplined execution. Our core competencies span across multidisciplinary engineering services, project management, and specialized technical testing and analysis. We pride ourselves on navigating complex project lifecycles—from initial planning and detailed design to on-site execution and final handover—ensuring optimal resource utilization and adherence to rigorous quality benchmarks.

Vision & Mission

Our Vision:

To be a trusted industry leader in civil infrastructure and engineering solutions, recognized for technical excellence, pioneering project delivery, and an uncompromising dedication to building a safer, more connected future.

Our Mission:

- To execute multidisciplinary engineering and infrastructure projects with utmost precision, adherence to timelines, and cost-efficiency.
- To foster an uncompromising safety culture built on strict "Zero Tolerance" protocols and continuous workforce development.
- To build enduring relationships with our clients and partners through absolute transparency, integrity, and exceptional service delivery.
- To continually integrate innovative engineering practices and sustainable methodologies across all our operations.

Our Core Focus & Capabilities

- **Civil Infrastructure & Engineering:** Delivering dependable structural solutions, civil works, and technical site management tailored to industrial and commercial demands.
- **Technical Consultancy & Design:** Providing expert engineering evaluations, design optimizations, and comprehensive analysis backed by industry best practices.
- **Project Execution & Management:** Streamlining large-scale operations with an uncompromising focus on timeline management, cost efficiency, and rigorous safety standards.

Our Core Values

- **Uncompromising Quality:** Adhering to strict technical specifications, material integrity, and quality control systems across every venture.
- **Safety First:** Fostering a culture of "Zero Tolerance" safety protocols, routine tool-box talks, and total compliance on all project sites.
- **Integrity & Transparency:** Building enduring partnerships with clients, stakeholders, and vendors through clear communication, ethical conduct, and prompt accountability.
- **Continuous Improvement:** Leveraging modern engineering techniques and adaptive management strategies to overcome complex operational challenges.

Services / Expertise

- **Civil Infrastructure & Engineering** Delivering robust, end-to-end structural solutions and heavy civil works tailored for demanding industrial and commercial landscapes. Our expertise spans large-scale site development, complex foundational engineering, and precision structural construction built to withstand rigorous operating conditions.
- **Industrial & Specialized Projects** Executing complex mechanical and civil integrations for heavy industrial applications. We specialize in precision installations and structural foundations for heavy machinery, mobile crushers, wheel washeries, and extensive Raw Material Handling System (RMHS) yards.
- **Technical Consultancy & Design** Providing expert engineering evaluations, advanced design optimizations, and comprehensive structural analysis. We bridge theory and execution through rigorous Quantity Survey, technical feasibility studies, and actionable engineering insights.
- **Project Management & Execution**

  ✓ **End-to-End Contract Delivery:** Spearheading the seamless execution of high-value, large-scale industrial contracts from inception to final handover, while strictly optimizing project lifecycles, resource allocation, and target timelines.

  ✓ **Rigorous Financial & Administrative Oversight:** Managing complex financial reconciliations with precision, encompassing meticulous Running Account (RA) bill management, Joint Measurement Records (JMR) auditing, and structured Price Variation Clause (PVC) settlements.

  ✓ **Operational Control & Accountability:** Harmonizing site activities, multidisciplinary engineering teams, and client expectations to maintain uncompromised budgetary control, operational transparency, and adherence to quality benchmarks.

BEWANDERT
ENGINEERS (P) LTD
FROM DESIGN TO DELIVERY

Operational Strength & Technical Preparedness

1. **Elite Leadership Pedigree & Domain Expertise**
   - **Seasoned Engineering Leadership:** Spearheaded by core directors and management personnel possessing extensive, hands-on experience in executing complex civil infrastructure, heavy industrial construction, and railway siding projects.
   - **Direct Industry Acumen:** Proven individual track records in managing multi-crore industrial projects across major steel plants, mining corridors, and rail networks (including large-scale earthworks, RCC foundations, and track alignments).
   - **Agile Management & Compliance:** Advanced capability in deploying international project management methodologies, strict billing reconciliations, and regulatory statutory compliances from day one.
2. **Workforce Strength (Human Capital & Technical Cadre)**
   - **Core Engineering & Management Cadre:** A lean, highly experienced leadership team comprising seasoned project managers, structural engineers, and QA/QC specialists with decades of cumulative execution experience in major industrial and infrastructure projects.
   - **Site Supervision & Execution Teams:** Dedicated site engineers, safety officers, and foremen skilled in managing complex civil foundations, structural steel erection, and railway track works.
   - **Scalable Labor & Sub-Contractor Ecosystem:** A pre-vetted, highly flexible labor mobilization framework capable of scaling up skilled manpower (masons, bar benders, shuttering carpenters, welders, track-fitters) and unskilled workforce rapidly based on project demands.
3. **In-House Technical & Engineering Precision**
   - **Advanced Engineering Cell:** Dedicated in-house expertise in structural design, precise estimation, value engineering, and rapid on-site problem solving.
   - **Rigorous Quality Frameworks:** Institutionalized Quality Assurance and Quality Control (QA/QC) protocols aligned with IS, IRC, and railway specifications to ensure zero-defect delivery.
   - **Specialized Domain Competencies:** Core technical readiness in heavy industrial civil foundations, structural steel erection, precision track ballasting, and comprehensive infrastructural support.

BEWANDERT Engineers Private Limited
CIN: U71100WB2023PTC262113

☎ +91 8528478830 / +91 93338 83330
✉ info@beplkol.com ; mgsinfo3@gmail.com

4. **Resource Mobilization & Supply Chain Readiness**
   - **Strategic Procurement Channels:** Established pre-vetted vendor networks and direct manufacturer partnerships for seamless, uninterrupted procurement of high-grade steel, cement, aggregates, and specialized hardware.
   - **Asset & Fleet Preparedness:** Access to modern heavy machinery fleets, transit mixers, lifting gear, and earthmoving assets through strategic leasing and deployment frameworks.
   - **Rapid Deployment Capability:** Lean, modern corporate structure enabling lightning-fast site mobilization and immediate resource allocation without bureaucratic delays.
5. **Machinery & Heavy Plant Assets**
   - **Strategic Asset-Pooling & Leasing Framework:** Backed by robust commercial relationships with major equipment rental agencies, ensuring immediate access to high-capacity heavy machinery without legacy depreciation delays.
   - **Core Fleet Readiness:** Rapid deployment capability for heavy earthmoving machinery (excavators, loaders, backhoes), transit mixers, batching plants, cranes, and specialized material handling equipment.
   - **High Uptime Protocols:** Stringent preventive maintenance agreements and rapid-response on-site mechanical support teams guaranteed through vendor service level agreements (SLAs) to eliminate project bottlenecks.
6. **Tools, Tackles & Precision Testing Equipment**
   - **In-House Surveying & Measurement:** Modern precision instruments including Total Stations, digital auto levels, and laser alignment tools for high-accuracy civil and railway track geometry setup.
   - **Execution Tackles & Rigging Gear:** Comprehensive inventory of heavy-duty scaffolding systems, hydraulic jacks, chain pulley blocks, professional-grade welding units, concrete vibrators, and pneumatic cutting tools.
   - **On-Site Quality Control Toolkit:** Essential field testing equipment for immediate quality verification, including concrete cube testing machines, slump test kits, sieve shakers, and soil compaction testing apparatus.
7. **Quality Assurance, Safety, & Compliance**
   - **Commitment to Standards:** All operational workflows strictly adhere to relevant national and international standards (IS, IRC, and railway specifications), backed by comprehensive Quality Assurance and Quality Control (QA/QC) protocols at every phase of execution.

- **Zero-Harm Safety Culture:** Stringent Health, Safety, and Environment (HSE) protocols enforced through mandatory daily safety briefings, specialized PPE compliance, routine safety audits, and zero-tolerance incident policies.
- **Environmental & Site Stewardship:** Systematic implementation of dust suppression, wastewater management, and eco-friendly construction practices to minimize community impact and ensure regulatory compliance.

8. **Enhanced Capability Matrix**

Core Capability / Domain	Technical Scope & Execution Strategy	Workforce & Resource Deployment Model	Value Delivered to Client
Railway Siding & Track Infrastructure	Track alignment, ballasting, heavy earthwork formation, point & crossing installation, and logistics integration.	Dedicated railway-certified engineers and specialized track-fitting work crews backed by heavy tamping/laying equipment tie-ups.	Seamless logistics integration and high load-bearing structural durability.
Heavy Industrial Civil & Foundation Works	RCC equipment foundations, structural steel framing, pipe racks, and heavy industrial facilities within active plants.	Experienced structural engineers and skilled formwork/reinforcement teams equipped with batching and pumping gear.	Structural longevity, dynamic load resistance, and zero plant interference.
Workforce & Labor Mobilization	Rapid deployment of multi-disciplinary engineering and technical labor forces across remote industrial sites.	Agile corporate structure enabling immediate manpower scaling through pre-vetted regional labor networks.	Zero recruitment delays and accelerated site takeoff from day one.
Machinery & Plant Deployment	Fleet management, heavy lifting coordination, and continuous earthmoving/concrete placement operations.	Strategic rental alliances ensuring plug-and-play access to top-tier excavators, transit mixers, and cranes.	Maximum asset uptime, zero equipment bottlenecks, and high productivity.
Tools, Tackles & QA/QC Gear	Rigorous multi-tier material testing and high-precision structural/geometrical positioning.	Dedicated QA/QC inspectors equipped with calibrated surveying instruments and field testing kits.	Defect-free, long-lasting assets meeting strict regulatory specifications.
Health, Safety & Environment (HSE)	"Zero-Harm" safety protocols, daily briefings, strict PPE enforcement, and systematic environmental control.	Certified site safety officers empowered with complete authority over on-site safety gear and protocol drills.	Safe, hazard-free work environment with zero lost-time incidents.

9. WORKFORCE, MACHINERY & ASSET INVENTORY

Category	Resource Classification	Deployment Strategy / Specifications	Preparedness Status
Workforce	Core Engineering & Management	Seasoned Project Managers, Structural Engineers, QA/QC Specialists	Active / Ready (Current Strength 10)
Workforce	Site Supervision & Execution	Site Engineers, Safety Officers, Foremen, and Surveyors	Pre-vetted Roster (Current Strength 25)
Workforce	Skilled & Unskilled Labor	Masons, Bar Benders, Shuttering Carpenters, Welders, Track-Fitters	Scalable Regional Network
Machinery	Earthmoving & Excavation	Excavators, Loaders, Backhoes, Tippers via strategic rental alliances	Vendor SLA Secured
Machinery	Concrete & Placement	Transit Mixers, Concrete Pumps, Mobile Batching Units	Vendor SLA Secured
Machinery	Lifting & Handling	Hydraulic Cranes, Chain Pulley Blocks, Gantry Rigging Gear	Vendor SLA Secured
Tools & Tackles	Surveying & Alignment	Total Stations, Digital Auto Levels, Laser Alignment Tools	Calibrated & In-House
Tools & Tackles	Re-bar Cutting / Bending	Re-bar Cutting & Bending Machine and necessary required Tools & Tackles	Readily available , In-House
Tools & Tackles	Construction Gear	Heavy-duty Scaffolding, Pneumatic Tools, High-frequency Vibrators	Arranged/procured as per Project requirement
Tools & Tackles	Quality Control Lab	Cube Testing Machines, Slump Test Kits, Sieve Shakers, Soil Compactors	Fully Certified

QUALITY POLICY

At **Bewandert Engineers Private Limited (BEPL)**, we are steadfastly committed to delivering engineering excellence, heavy civil infrastructure, and industrial solutions that consistently meet or exceed the highest standards of quality, reliability, and precision. We view quality not merely as a compliance requirement, but as the fundamental cornerstone of our reputation and long-term partnerships.

To sustain this commitment, management and all project teams pledge to uphold the following core principles:

- **Uncompromising Technical Precision:** Strictly adhering to approved engineering designs, structural specifications, material standards, and rigorous quality control protocols across all project lifecycles.
- **Zero-Defect Execution:** Cultivating a proactive approach to prevent errors in on-site construction, industrial installations, and technical consultancy through systematic verification and Joint Measurement Records (JMR) auditing.
- **Customer & Stakeholder Satisfaction:** Partnering closely with clients and stakeholders to fully understand their operational needs, ensuring timely delivery, transparent communication, and absolute accountability.
- **Continuous Improvement & Innovation:** Regularly reviewing and upgrading our execution methodologies, administrative oversight, and technical processes to incorporate industry best practices and emerging engineering advancements.
- **Empowered & Competent Workforce:** Investing in the continuous training, skill enhancement, and safety awareness of our engineers, supervisors, and site personnel to foster an environment of collective responsibility for quality.
- **Regulatory & Statutory Compliance:** Ensuring strict adherence to all applicable statutory regulations, safety codes, environmental standards, and contractual obligations in every region we operate.

By embedding this policy into every facet of our operations—from our corporate headquarters to our active project sites—**BEPL** strives to build robust infrastructure that stands the test of time and secures enduring trust.

HEALTH, SAFETY, AND ENVIRONMENT (HSE) POLICY

At **Bewandert Engineers Private Limited (BEPL)**, the safety, health, and well-being of our workforce, subcontractors, and surrounding communities—along with the protection of the environment—are core values of our business. We are committed to achieving **Zero Harm** across all our civil-infra, industrial, and project execution sites.

To fulfill this commitment, management and all project teams shall strictly uphold the following principles:

- **Zero-Tolerance Safety Culture:** Enforcing rigorous safety rules, mandatory use of Personal Protective Equipment (PPE), and active hazard identification prior to commencing any work activity.
- **Daily Safety Briefings (TBT):** Conducting routine Tool Box Talks (TBT) before every shift to align site personnel on safety protocols, risk mitigations, and site-specific procedures.
- **Regulatory & Statutory Compliance:** Strictly complying with all applicable national, state, and local safety, labor, and environmental laws, regulations, and industry codes.
- **Environmental Protection:** Minimizing waste, preventing pollution, conserving natural resources, and ensuring responsible management of environmental footprints across all project locations.
- **Competence & Accountability:** Providing continuous HSE training, safety awareness programs, and clear operational responsibilities to ensure every employee and partner is accountable for a safe workplace.
- **Incident Prevention & Continual Improvement:** Promoting proactive reporting of near-misses and hazards, investigating root causes, and regularly reviewing our HSE management systems to drive continuous improvement.

Safety is a shared responsibility. By integrating these principles into every level of our operations, we ensure that every project is delivered safely, sustainably, and successfully.

CODE OF ETHICS AND BUSINESS CONDUCT

At **Bewandert Engineers Private Limited (BEPL)**, we conduct our business with the highest standards of integrity, transparency, and professional accountability. Our reputation for honesty and fairness is vital to our success, and we expect every director, manager, engineer, employee, and subcontractor to uphold these ethical standards across all operations.

Our core ethical commitments encompass:

- **Integrity and Honest Conduct:** Acting with absolute honesty and integrity in all business dealings, professional interactions, and on-site operations, ensuring our actions reflect our corporate values.
- **Zero Tolerance for Corruption and Bribery:** Strictly prohibiting any form of bribery, kickbacks, fraudulent billing, or corrupt practices. All financial transactions, Joint Measurement Records (JMR), and Running Account (RA) bills must be accurate, transparent, and fully verifiable.
- **Fairness and Respect in the Workplace:** Providing a safe, inclusive, and harassment-free work environment that values diversity, treats every individual with dignity, and prohibits discrimination of any kind.
- **Conflict of Interest:** Avoiding any personal, financial, or external interests that could conflict with the best interests of the company or compromise professional judgment.
- **Confidentiality and Data Protection:** Safeguarding proprietary company information, client data, technical designs, commercial agreements, and sensitive documents from unauthorized disclosure or misuse.
- **Compliance with Laws and Regulations:** Strictly adhering to all applicable national, state, and local laws, statutory regulations, environmental standards, and contractual obligations in every region we operate.
- **Reporting and Accountability:** Encouraging open communication and the prompt reporting of any unethical behavior, safety violations, or compliance breaches without fear of retaliation.

By embedding this code of ethics into our daily corporate and site operations, **BEPL** ensures a culture of trust, accountability, and sustainable growth.

WHISTLEBLOWER POLICY (VIGIL MECHANISM)

1. Objective and Scope

Bewandert Engineers Private Limited (BEPL) is committed to adhering to the highest standards of ethical, moral, and legal conduct in all its business operations. The objective of this Whistleblower Policy is to provide a robust mechanism (Vigil Mechanism) for directors, employees, contractors, and stakeholders to voice genuine concerns, report unethical behavior, actual or suspected fraud, corruption, safety violations, or malpractices without fear of reprisal, discrimination, or retaliation.

2. Definition of "Protected Disclosure"

A "Protected Disclosure" refers to any communication made in good faith by a whistleblower that discloses or demonstrates information about unethical activity, illegal conduct, or operational malpractice. This includes, but is not limited to:

- Breach of corporate integrity, bribery, extortion, or corruption.
- Financial irregularities, fraudulent billing, manipulation of Running Account (RA) bills, or Joint Measurement Records (JMR) auditing discrepancies.
- Gross negligence or willful disregard of company safety protocols and "Zero Tolerance" HSE standards.
- Misuse or misappropriation of company funds, assets, or proprietary technical data.
- Violation of applicable national, state, or local statutory laws, regulations, and company policies.
- Any form of harassment, discrimination, or abuse of authority.

3. Eligibility to Report

This policy applies to all permanent, temporary, and contractual employees, engineers, project site staff, consultants, and business partners associated with Bewandert Engineers Private Limited across all corporate offices and active project locations.

4. Reporting Mechanism and Procedure

- **Channels of Reporting:** Concerns or protected disclosures should be submitted in writing (via email or sealed letter) to the designated **Whistleblower Officer / Committee** appointed by the management.
- **Content of Disclosure:** The report should be factual rather than speculative and should contain as much specific information as possible (including dates, names of

individuals involved, project locations, and supporting evidence or documents) to allow for a proper investigation.

- **Protection of Identity:** The confidentiality of the whistleblower will be maintained to the fullest extent possible consistent with the need to conduct an adequate investigation.

5. Investigation Process

- ✓ All protected disclosures received will be thoroughly and impartially investigated by the designated investigator or committee.
- ✓ Both the whistleblower and any personnel involved or named in the complaint will be treated fairly and given a reasonable opportunity to present their case during the inquiry.
- ✓ The investigation shall be concluded within a reasonable timeframe, and a formal report outlining the findings and recommended actions will be submitted to the management.

6. Protection Against Retaliation

- **Bewandert Engineers Private Limited** strictly prohibits any form of retaliation, victimization, harassment, or adverse employment action against any whistleblower who reports a concern in good faith.
- Any employee or supervisor found retaliating against a whistleblower will be subject to strict disciplinary action, up to and including immediate termination of employment.
- **Protection Against Misuse:** If a complaint is found to be malicious, frivolous, or filed with mala fide intent, the complainant will face strict disciplinary action under company guidelines.

7. Accountability and Action

If an investigation leads to the conclusion that improper or unethical conduct has occurred, the management will take immediate and appropriate corrective action, which may include disciplinary penalties, termination of contracts, recovery of financial losses, or referral to legal authorities where warranted.

POLICY ON THE PREVENTION, PROHIBITION, AND REDRESSAL OF SEXUAL HARASSMENT (POSH)

1. Objective and Commitment

Bewandert Engineers Private Limited (BEPL) is committed to creating and maintaining a safe, secure, and dignified work environment free from any form of harassment, intimidation, or exploitation. We have a **Zero Tolerance** policy towards sexual harassment at all our workplaces, corporate offices, and active project sites. Every employee, contractor, consultant, and visitor has the right to work with dignity and respect.

2. Scope

This policy applies to all employees of **BEPL**, including permanent, temporary, contractual, daily-wage workers, interns, trainees, consultants, and visitors across all corporate offices and project sites (including regional project operations).

3. Definition of Sexual Harassment

Under this policy, "sexual harassment" includes any one or more of the following unwelcome acts or behavior (whether directly or by implication):

- Physical contact and advances.
- A demand or request for sexual favors.
- Making sexually colored remarks or verbal abuse.
- Showing pornography or explicit material.
- Any other unwelcome physical, verbal, or non-verbal conduct of a sexual nature.

4. Internal Complaints Committee (ICC)

To effectively address any grievances, the company shall constitute an **Internal Complaints Committee (ICC)** in accordance with the POSH Act.

- ✓ The ICC shall be headed by a presiding officer who is a woman employed at a senior level.
- ✓ The committee shall include members committed to the cause of women's safety and at least one external member with relevant legal or NGO experience.
- ✓ The contact details and names of the ICC members shall be prominently displayed across all office notice boards and project site locations.

5. Filing a Complaint

- Any aggrieved person who feels subjected to sexual harassment may submit a written complaint to the ICC within **3 months** from the date of the incident (and in case of a series of incidents, within 3 months of the last incident).
- If the aggrieved person is unable to submit a written complaint due to any physical or mental incapacity, a designated co-worker or family member may assist or file on their behalf.
- **Confidentiality:** The identity of the complainant, respondent, witnesses, and all proceedings of the ICC shall be kept strictly confidential.

6. Redressal and Inquiry Process

- Upon receipt of the complaint, the ICC may initiate a conciliation process (if requested by the complainant) before starting a formal inquiry.
- If conciliation is not pursued or fails, the ICC shall conduct a thorough, fair, and unbiased inquiry into the matter, giving both parties adequate opportunity to present their case and evidence.
- The inquiry shall be completed within the statutory timeline, and a formal report with recommendations shall be submitted to the management for action.

7. Action and Consequences

If the respondent is found guilty of sexual harassment, the management shall take strict disciplinary action, which may include:

- ✓ Written apology, warning, or reprimand.
- ✓ Withholding of promotion, salary increments, or professional perks.
- ✓ Mandatory counseling or community service.
- ✓ Immediate termination of employment or contract without notice.
- ✓ Filing of a criminal complaint under the applicable provisions of the law.

8. Protection Against Retaliation

The company ensures that any employee who reports an incident, participates in an inquiry, or supports a victim will be fully protected against any form of retaliation, victimization, or discrimination. False complaints filed with malicious intent, however, will be subject to strict disciplinary action.
